- Opticom
- Aluminum Hose Bed Cover
- Automatic Tire Chains
- Pump Heat Pan
- Roll Out Trays
- Stereo System
- Weatherband Radio

Additional Features or Loose Equipment _____

Maintenance or Repairs Needed? _____

Taking Pictures of Your Apparatus

Pictures of your apparatus are the most descriptive element of the advertising process! The pictures you submit to Firetrucks Unlimited are the photos that will show up with the listing of your fire apparatus online and in print advertising.

The following are types of photos that will be beneficial in advertising your vehicle

1. Overall shots of your truck from every side. These are best taken outside in an open area to get a full view of each side.
2. Photos of special features on the truck - i.e. the pump panel, opened compartment doors, interior layout, light tower, hydraulic ladder racks, etc

1175 Center Point Drive, Henderson, NV 89074
